SATHWIK N SHARMA

has successfully completed the online, non-credit Specialization

Intel® AI Fundamentals

Artificial Intelligence (AI) is becoming an everyday part of almost every business. If you aren't selling AI today, then you might be missing a huge opportunity. Learn the basics of AI to be able to recommend and sell AI solutions, including what AI is, why it is relevant now, what a typical AI journey looks like, and how to start the AI conversation with the different AI personas you'll likely interact with. You'll raise your comfort level in selling the Intel AI portfolio and learn details behind several representative case studies that can scale across similar use cases and/or industry verticals.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
